RALEIGH, N. C. WEDNESDAY MORNING, JULY 17, 1878.

VOL. XII—NO. 119.

DIGEST OF OPINIONS.

Of the Supreme Court Filed at June Term 1878 to Appear in 7th N. C. Reports.

(Reported for the News by Walter Clark, Esq., Attorney at Law.)

The following opinions were filed Monday afternoon.

40. State v. Rogers, from Union. A charge to the jury on an issue of bastardy that "the written examination of the woman is presumptive evidence that the defendant is the father of the child, and that it developed on him, by a preponderance of evidence, that he was not; and that if taking all the evidence into consideration, both sides were evenly balanced, the State is entitled to a verdict" is not erroneous.

41. Houston v. Walsh, from Union. An order for arrest and bail granted after the issuing and return of an execution against the property of a defendant without authority of law and the arrest is illegal. Such order and accompanying the summons or issue therefor, before or after judgment, sections 149, 150, 153 C. C. P. An execution against the person of the debtor under C. C. P. section 158 is a substitute for the writ of *habere corpus*, and by section 260 can only issue in cases where there has been an order of arrest and bail or where the complaint and return are in conformity with the provisions of section 149.

An order of arrest in a civil action, is insufficient.

42. Liler v. Deery, from Wayne. What was adjudicated in another suit between the parties, is a matter of fact to be determined on the trial. Even if, as contended here by the defendant, the judgment in the first suit was affirmed by the judge and not by the jury, still it must be determined on the trial, and not upon a motion for a continuance. No appeal lies from an order granting a continuance.

43. White v. Forehand, from Wayne. A deed acknowledged and privy examination of the wife taken, certified by a judge of the Superior Court in the Cherokee Nation, where the grantors resided, with proof that the wife was a free person, is sufficient to bind the land. Under a liberal and useful construction of our statute, *Batt. Rev. Ch. 35, sec. 8*, the Cherokee Nation is a territory and its "Chief" is the "Governor" thereof. A bond to pay \$200, payable in good merchandise, the bond of the defendant, must be delivered to the plaintiff at the rate of 16 cents per pound. It is not an agreement to pay \$200, but so much cotton as will amount to that sum, i. e., 631 pounds.

44. Cook v. Sexton, from Nash. A widow does not forfeit her right to "year's provision" by her adultery where the adultery was committed prior to the act of 1871, chapter 103, which made adultery a crime, and which made it a condition to her right to a year's provision.

45. Young v. Griffith, from Madison. One tenant in common cannot sell the land of another, and it follows that he has no authority to make an admission in evidence against the other, will be enlarged or varied by the boundaries of a plantation, and that a deed, which is an exception to the rule that one person jointly interested may bind another by his admission, is not binding.

46. Young v. Griffith, from Madison. It is not the duty of a court of appeals to put its decision entirely on some small error of the court below, and thereupon send the case back, thus protracting litigation, but it should, if possible, pass on some vital question and arrest the litigation, or when that is not possible, it may explain what are the decisive questions in the case so the parties may direct their attention to them.

47. Lord v. Meroney, from Wayne. The doctrine laid down in *Lord v. Beard*, No. 46 supra, applies also to the case of a subsequent purchaser from the party who bought the land from the defendant, and who, having acquired jurisdiction of the subject matter of the action, from that time, it is as if *in custodia legis* until the final disposition of the case by the payment of the purchase money and execution of the deed by the proper officer of the court. Parties who become *bona fide* purchasers of the premises from the first purchaser are in no better condition than he would be, and are subject to the same proceedings of the court to collect by summary proceedings in the cause, and the plaintiff can only proceed against them by motion in the original cause.

48. Perkins v. Caldwell, from Burke. The estate left personal property, and sufficient, including the interest, to pay his debts and all the legacies. He had made several unequal advancements to his children, and to make equality directed his executor to pay specific amounts to his children and to the legacies. He then devised "all the residue of my (his) estate," both real and personal, to his wife, and she, at her death, devised the residue to be divided into many shares as "I (he) may have children then living." Held, the legacies given to make equality are not a charge upon the lands embraced in the residuary bequest, but a charge upon the personal property.

49. State v. Patrick, from Lenoir. An indictment for stealing "one pound of cotton" is not defective, although the syllabus in *State v. Jenkins* 78 N. C. 478, erroneously uses the word *meat*, it should read *cotton*.

50. State v. Ray, from Wilkes. The defendant was indicted for an assault with a dangerous weapon, and pleaded that he was a free man, and the United States Internal Revenue Service, that he could not get on impartial trial and asked for a removal of his case into the United States District Court. The judge below ordered a venire to be returned, and an order of continuance is not appealable.

Address of the State Executive Committee. To the Democratic Conservative Party of North Carolina:

The Convention of your party held at Raleigh, June 13th, 1878, made the following nominations:

For the Supreme Court: For Chief Justice—William N. H. Smith. For Associate Justices—Thomas S. Williams, John W. Caldwell, and James C. L. Gidger.

For the 8th Judicial District—Alphonso C. Gidger. For the 9th Judicial District—James C. L. Gidger.

We congratulate the party on the favor with which these nominations have been received.

The nominees for the Superior Court are men of attainment in the profession of the law, and have the confidence and esteem of all who know them, while the names of Smith, Ashe and Dillard are well known throughout the entire State and are in every section regarded as the synonym of high professional standing and integrity of character.

We present with pride and satisfaction the tickets to the voters of North Carolina—conscious that no words of eulogy that we might pronounce could do justice to the just esteem with which the people of the State already regard these distinguished citizens.

Their trust and praise is to be found in the fact, that so deserving are they of public confidence, so pure and spotless have been their lives—so competent are they to discharge the important duties of the high offices for which they have been nominated, that no opposition has been manifested to their election; and we are permitted to hope that they will be called to fill these exalted judicial stations by the united voice of a whole people.

Besides the Judges, we have also to

elect Solicitors, county officers and members of the General Assembly. There is much reason to expect that our success as to these officers will be more complete than ever before.

The divisions and dissensions that prevail in certain localities in the ranks of the Republican party should animate us to make extraordinary efforts to secure the ascendancy of our party in every county where it is possible throughout the entire State. Every Democrat should see for himself that his name is certainly on the registration books, and the local committees should be fully and thoroughly organized in every township. The steps should be taken to have every man likely to support our nominees brought up for registration, and then means must be provided to carry every Conservative to the polls. Let every man consider himself a committeeman to see that all of our friends are present at the great roll call of their party on the 15th day of August next.

In this connection we desire to call attention to the changes that have been made in our election law by the following provisions of the act ratified 21st day of March, 1877, being sections 12 to 31:

The judges of election at each precinct shall appoint one of their number to attend the meeting of the Board of County Canvassers as a member of the Board, and shall deliver to such officer the original return statement of the result of the election. The County Canvassers, so chosen shall be the Board of Canvassers. They shall meet August 3d, at 12 o'clock at the Court House, and without delay proceed with their business.

The Board of County Canvassers (not County Commissioners, as erroneously copied in the printed copy) shall make and sign three abstracts of all the votes cast for the Judges and for the Sheriff and one to be sent by mail, in a registered letter to Mr. J. A. McNeill, Secretary of State, Raleigh, N. C.

We regret to hear of independent candidates in certain counties. The tendency of such movements is always to weaken the bonds which bind our party together, and to destroy our party organization. Those who seek their personal promotion at the expense of their party friends endeavor to excite dissension. If the organization of the party is not maintained, the party itself becomes broken up and disappears. We trust there are but few men calling themselves Democrats who would willingly contribute to such a deplorable end. The people of North Carolina and of the South cannot regard with satisfaction that man who would seek to impair the efficiency of the Democratic party. It has within its ranks men of noble and generous spirit, who are ready to sacrifice all to the good of the party, and to the best interests of the people.

It has redeemed North Carolina, reformed our Government, reconstituted our public Treasury from the sordid and vicious grasp of needy adventurers, reformed our system of political justice, re-established the power and dominion of law, averted grave dangers that threatened to engulf us in turmoil and insurrection, and settled society on a firm and desirable basis, so that our people live together in peace, harmony and friendly relations.

It has checked the reckless extravagance of our national government, and curtailed its annual expenditures many millions of dollars.

It has required a change in national legislation in the interest of the people, and secured the Government from the baneful influences of great corporations and of those powerful capitalists who, during the late war, preyed upon the necessities of the people, and accumulated vast treasures at the public expense.

It has fought a long and glorious fight with political zealots who in their mad fanaticism had subverted the Constitution and reared military dictatorships upon the ruins of our former State Government. It has given the Republican party the right to govern, and has secured to the people the right to elect their representatives to the Legislature and to the Executive.

It has broken the chains of a military despotism forced upon our down-trodden people, and has freed Southern States from an armed soldiery propped up by the Republican administration to illegal and base uses.

It has forced the Republican leaders to desist from their schemes of usurpation and to leave the Southern people free to rule for the men of their choice according to the dictates of reason and of conscience.

While firm in declaring the right, while persistent that the Constitution should be observed, while determined that law and order and peace should prevail, the Republican party has ever recognized that our Government is founded on the will of the people, and that the will of the people under the Constitution must be obeyed; it has neither employed nor resorted to unconstitutional methods to accomplish the great ends it had in view.

In fine, it has restored to the Constitution of our fathers, has re-established prosperity in our midst; has lightened our great public burdens, and has rekindled an ardent patriotism in the hearts of millions of our Southern people. With such a record, what Southern Democrat will strike a blow at the Democratic party now on the eve of its complete triumph! If any there be, we appeal to the people to give them no aid and comfort at the polls.

We appeal to our friends to remember that the Democratic party is the only party that has rescued us from the terrible fate which Republican fanaticism had prepared for our people, and we urge them to stand steadily by that organization which has so bravely delivered our country from those great public evils that threatened to overwhelm us.

Be sure that he who is not with us is against us; and he who, arraying himself in the garb of an independent, strikes his covert blow at our party, is a more dangerous foe than the open, pronounced Republican, who fights fairly because he does not pretend to be with us, nor is not.

Stand by our nominees; hold up when the sun goes down on August 1st, we will have routed the enemy, horse, foot and dragons, all along the line.

By the Committee.

S. A. ASHE, Chairman. J. J. FITCH, Secretary.

A Word to the People. Correspondence of the News.

FORESTVILLE, July 15. There is a matter of no small consequence, to which we would be glad to invite the attention of the public, if you will be so kind as to allow a few brief remarks through the columns of your able paper. We are constant readers of the News, and by the way, have been forcibly impressed with the fact that there are more excursions to different portions of the State and more trips to the Springs, &c., this season than we have ever known before. It seems that every one, both high and low, rich and poor, who can possibly raise enough money to pay the fare, is ready, willing and waiting to be off the moment they hear of an excursion. They cannot remain satisfied so long as they have one cent in their pockets. No wonder there is so much complaint of the scarcity of money throughout the country; no wonder our poor-houses are filled to overflowing. How can we ever expect to see a better condition in the State, of affairs so long as our people thus continue in this extravagance. We say, "extravagance," and we mean exactly what we say. How many of our citizens are ready, willing and waiting to be off the moment they hear of an excursion. They cannot remain satisfied so long as they have one cent in their pockets. Congressional Nominations.

of New Haven.

FOR CONGRESS, SEVENTH DISTRICT.

ROBERT F. ARMFIELD,

ELECTION, TUESDAY, NOVEMBER 5TH.

Congressional Convention.

A Convention of the Democrats and Conservatives of the Fourth District, will be held in the city of Raleigh, on Thursday the 22nd day of August next, for the purpose of nominating a candidate for Congress. Each county will be entitled to one vote for every one hundred votes and fractional part over fifty, given for Gov. Vance in 1876.

By order of District Ex. Committee,

H. A. LONDON, Jr.,

Chairman.

The Democratic papers in the District will please copy.

The season at Saratoga has thus far dragged heavily.

WENDELL PHILLIPS and Ben Butler are now as thick as thieves.

TROY pays the highest tax rate, 5.14 per cent., of any city in the United States; and Detroit the lowest, 1.24 per cent.

The Washington Post fears that the crime of the Presidential fraud has well-nigh deadened the public conscience. There never was a doubt of this deplorable effect.

Senator Conkling would not attend the funeral of civil service reform, if Hayes were to invite him. Conkling proposes to appoint a funeral at his own pleasure, and the corpse will be ready.

The Biblical Recorder has entered upon its 43rd volume. One is pleased to note evidences of its continued and increasing prosperity. It is a good sign to see the religious press well supported.

CONKLING is said to be big with indignation toward Hayes for his recent onslaught on the New York Custom-house, and the long pent up wrath of an avenging speech is hourly expected to burst forth at Utica. Happy family, this Republican party.

The Cincinnati Gazette thinks the business in hand now is to put the Democratic party out of power in Congress. A big business to undertake on the limited capital the Republican party has in hand, growing smaller, by degrees, and beautifully less, every day.

The New York Law Commission favors abandonment of the rule of law by which the wife in her husband's presence is supposed to act under his coercion. The Legislature is urged, in the Commission's report, just published, to put wives and husbands on the same footing in their trials before the courts for the same offenses.

The public will read with some surprise the opinion of the Supreme Court, a digest of which appears elsewhere as No. 50 in the News Digest, in State v. Hay. The opinion was filed per curiam, i. e. by the whole court, no one Judge probably wishing to take the responsibility for it. Could that offence have been committed by the "red-legged grasshopper" under color of his office?

The Commissioner of Agriculture at Washington has hit upon the theory that figs may be grown in some of the middle and South Atlantic States, and has sent out some seeds for experimental growth. It may be of interest to General LeDuc to learn that the finest figs in the world have been grown on

the coast of North Carolina for more than two hundred years past. He should send to Beaufort for some specimens.

SECOR ROBESON having made a movement to gobble up all the assets of Murtagh in the Washington Republican, the latter threatens to make some awful disclosures concerning the conduct of Robeson while Secretary of the Navy. The ability of Murtagh to disclose is not doubted, and it is said that he has both the pluck and the provocation.

THE Religious Herald, (Baptist) of Richmond, having stated that one of its correspondents had unfortunately been sent to the penitentiary, the Biblical Recorder of this city intimates that such a result is a legitimate consequence of being a correspondent of the Herald. It is feared that the brethren are imitating the sinful ways of some of the secular press toward one another.

For a nation as proud and powerful as Prussia, it has the worst administration of civil law on the globe. Russia is a model compared with Prussia. The Criminal Code of Berlin sentenced in one day, recently, Julius Bock, a tailor, to two and one-half years' imprisonment and hard labor for having sung a song which began with the words, "Wilhelm has died," though the song has no reference at all to the Emperor; Friedrich Sommer, a working man, to four years, for having said that Hoedel was an ass, but Nobbling had done better; another workman to one year for having said, "At last one was found who had the courage to do it;" August Heller, a blacksmith, to five years, for having said, "One has hit him, though;" Carl Dibas, a workman, to one year, for having exclaimed, when he heard of the other's fate, "But has he died?" These examples were selected among fifty-three similar ones, and thus the work goes on from day to day. The testimony of a single witness suffices for conviction, an arrangement which renders it quite easy to get an obnoxious person out of one's way.

The Mobile Register is not quite accurate in respect to the public men of North Carolina. It says:—"Among those who would like to succeed Senator Merrimon, of North Carolina, are General Clingman, who was expelled from the Senate in 1861, and Governor Vance, who, in 1853, succeeded General Clingman in the House." General Clingman was not expelled from the Senate, unless the retirement of the Southerners in Congress, to go with their States, was expulsion. Senator Clingman exchanged a six years term in the Senate of the United States for the sword of a Confederate General, and in all the Southern army there was not a more gallant soldier. Nor did Governor Vance succeed Clingman in the House of Representatives, by defeating him. Governor Brazz appointed Congressman Clingman to a vacant seat in the Senate, and Vance was elected to Congress from the district. The News has to occasionally discipline General Clingman, but he shall not be misrepresented. The truth of history must be vindicated. Old Sergeant Bagnet used to say of his wife, "great-est woman in the world, greatest woman in the world; but I never let her know it; discipline must be maintained."

GENERAL James M. Leach has got mad with the News, and writes a pertinent and characteristic letter of inquiry and remonstrance. He writes:—"Jimmy Leach, Royal Ringtail Roarer, is the dirty, slimy, low, riddle of me, in the Greensboro State, and transferred to the News. What is this for? What is your object?"

Nothing in the world, but investigation and inquiry. The simple minded young man who handles the scissors of this concern, imagined, in the innocence of his pure heart, that "Royal Ringtail Roarer" was something new and peculiar to Davidson politics, excellent in itself, and altogether desirable; and so hastened to put it on record, never dreaming but that it was something equivalent to "a feather in his cap" though from the designation, evidently to be worn, or sported, as the case might be, a little lower down. From the very nature of the publication it is conclusive that the verdant mind took in the appellation as a mark of conquest, for here is what was copied from the North State:—

"General James Madison Leach having broken up the Court House Ring ticket in Davidson county and had himself nominated, is now called the R. R. candidate,—Royal Ringtail Roarer."

The News does assure General Leach, seriously, and with pleasure, that no purpose to cast ridicule upon, or bring him into contempt was entertained. In fact no more than a momentary consideration was given the matter. It was one of those things which catches the eye of hurried journalism as a good thing, and in it goes, as a harmless bit of pleasantry. Regretting that General Leach did not view this matter in the light of innocent fun, the News is nevertheless glad he wrote to make known his feelings, for he thus affords an opportunity for this explanation, which is cheerfully given; and the hope here is that he and his friends are satisfied with it, for there is nothing but the best of feeling entertained for General Leach in this establishment.

Democratic Expenditures.

The shysing Republicans and some of the bushwhacking Independents, careless alike of their own words and the public records, are boldly asserting in the face of facts, and charging against the Democracy, that there has been no reduction of the public expenditure in the State government under Democratic rule.

As a starting point in an array of facts and figures which the News will

produce in contrasting Republican extravagance, with Democratic economy, there is here presented a statement of the cost of the legislature for every two years under the amended Constitution, which is the work of the Democratic party. The legislative term and the per diem and mileage of officers and members is constitutionally prescribed, and therefore the statement is absolutely correct, and the amount stated cannot be exceeded.

A session of the Legislature, held once in two years, limited to a term of sixty days, costs the State as follows:

Two presiding officers, \$60.00 per day \$12.00

One hundred and sixty-nine members, \$4.00 " 676.00

Four clerks, \$5.00 " 20.00

Seven clerks and doorkeepers, \$4.00 " 28.00

Total cost of the two Houses per day, \$738.00

Multiply by sixty days, \$44,160.00

Add mileage as per last session, Stationery, fires, lights, contingent labor and other expenses, Printing and binding the Laws, House and Senate Journals, public documents, bills, &c., 1,800.00

Greatest possible cost of the Legislature for two years, \$45,960.00

Now, it is only necessary to compare these figures with the Legislative expenses of the two years of 1868-'69, when the Republicans had complete control of the Legislature. Coming down through the years from 1870, through Democratic control, a vast saving will be perceptible. But it is only since the Democrats amended the Constitution, and made it possible to bring the Legislative expenditures within reasonable compass, that Democratic professions of economy can be fairly put to the test; and when that is done, we see that the expenses of Democratic government are less than one-fifth of the expenditures under Radical rule.

Is this nothing in favor of Democratic economy?

Warning William.

Old Ben Butler, on the Potter Committee, is driving the Presidential fraud home to the presidential household. Here is a sample of proceedings and results in the Committee on Saturday, Senator William Pitt Kellogg on the red hot investigation gridiron:—

Mr. Hiseock said Gen. Butler should ask for the parties who had been rewarded, and not those who had not; that was not the way of getting testimony to ask what a witness did not know.

General Butler said the administration had the books and could tell who had been rewarded; if he did not, but he wanted to find out; if any one was credited in this testimony with what he hadn't got, the administration could publish a correction. Said the General: "I want to know about this. Everybody I catch here has an office, or either has a brother, or sister, or uncle, or some relative in office, and I want to find some one of them who has not."

The Chairman ruled the question admissible, but requested Gen. Butler to change the form. He then took the persons composing the McVeigh commission, returning board, supervisors, etc., one by one, beginning with J. M. Harlan. It was shown that all the commission, except Gov. Brown, the Democrat, had either been given or tendered positions by Hayes; that all the visiting statesmen, except those who already held positions, were provided for. Then the General reached the returning board, and the witness admitted that Wells, Anderson, Cassanave and Kenner all held office, and that a brother of Cassanave had been appointed to a position. Next the protesting supervisors were taken up, and while Kellogg could not remember all the names he could remember that the supervisors of DeSoto, East Baton Rouge, Rapides, Ouachita and Richland parishes—all of whom protested—had been appointed to places by the Hayes administration; also that Anderson was offered a consulship, which he refused, and got his brother a clerkship. Mr. Kellogg remembered the facts very reluctantly, and for the life of him did not recall the facts concerning the other supervisors.

Gen. Butler then asked: Do you know of any reason or any special qualification for any one of these persons that we've found out to have office under the Administration more than anybody else, except their services in connection with Louisiana politics?

Mr. Hiseock objected to the question, and said its object was to throw discredit upon the Administration.

Gen. Butler said "the President" had declared that no man should be appointed to office except on high moral ground, and the inference must be that if this principle was broken in so many instances there must have been some great inducement. Said he: My friend from New York is continually looking at the consequences. I have nothing to do with them. Let us get at the facts, and the intelligence of the people will take care of the consequences.

Mr. Hiseock said it was plain that Gen. Butler's object was to make the Administration ridiculous.

Gen. Butler—I don't think I can make it more ridiculous than it has made itself.

Bald Mountain.

Bakersville Republican.

There it is again, these folks below the Ridge will keep on splitting mountains, and we see that we will be compelled to go into the splitting business; and bust up a few mountains, in order to keep up with the sensation. If we do commence, we shall make no half way work of it, but split a whole batch of mountains, from turret to foundation stone. We warn our contemporaries not to carry this thing too far.
